

Telemedicine Instructions for Patients with Android Smartphones

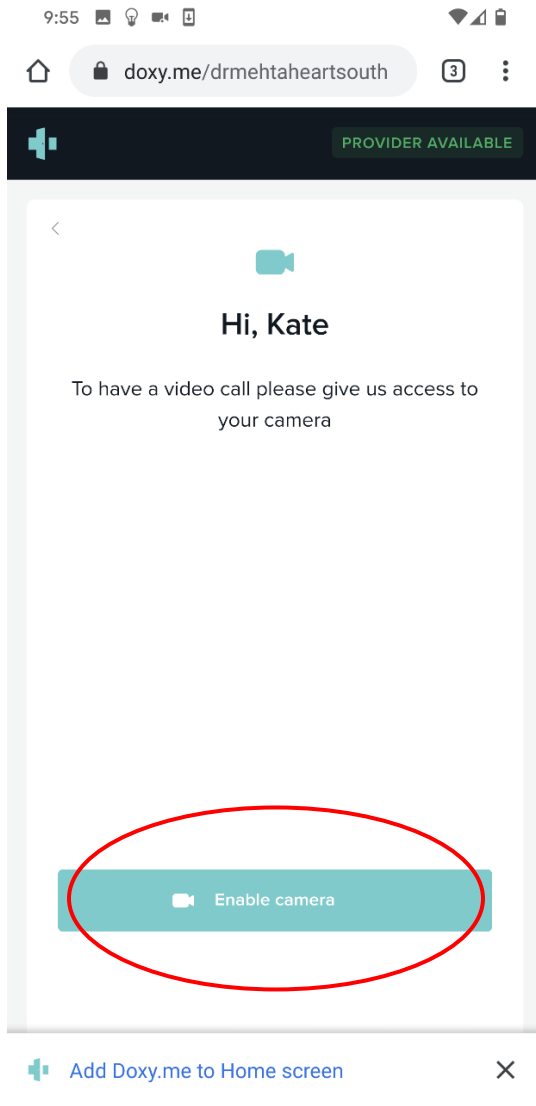

Step 1: Open the text message you receive from Doxy.me and click the link, which should open your browser

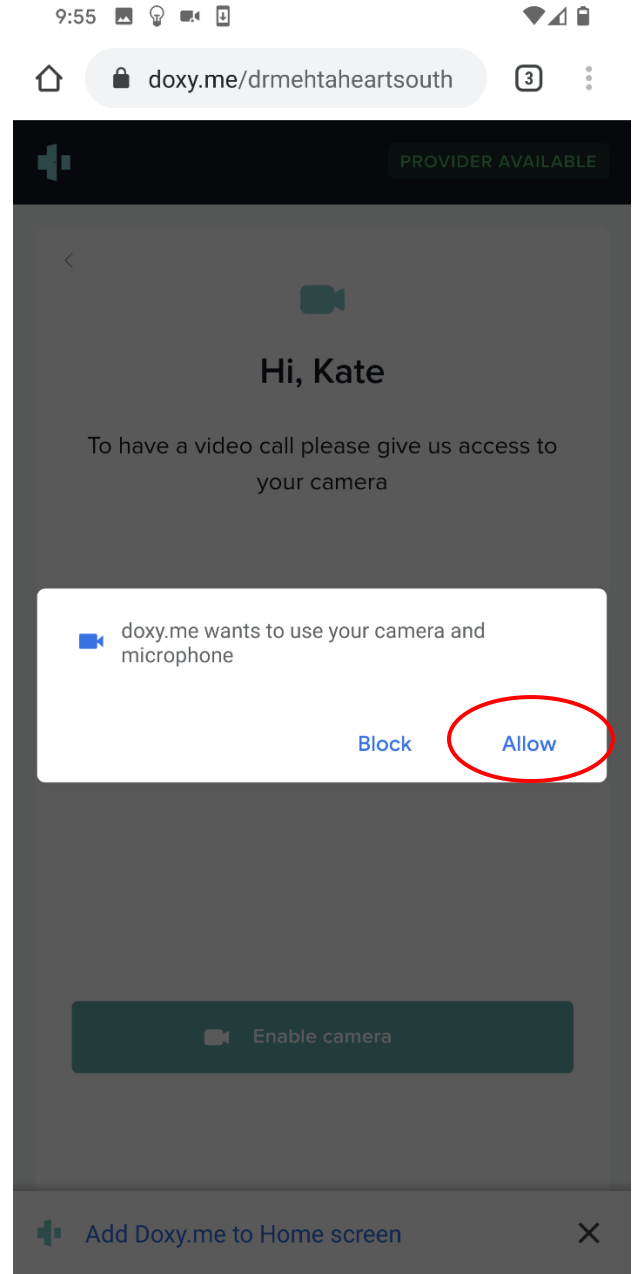

Step 2: Enter your name and click "Check In"

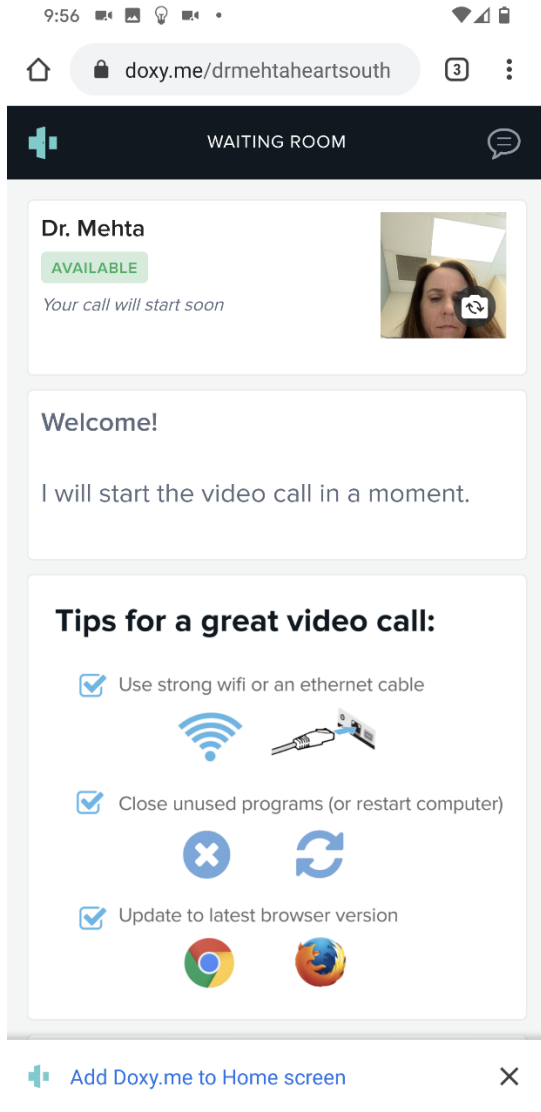

Step 3: Allow Doxy.me to access your camera and microphone by pressing “Enable Camera”

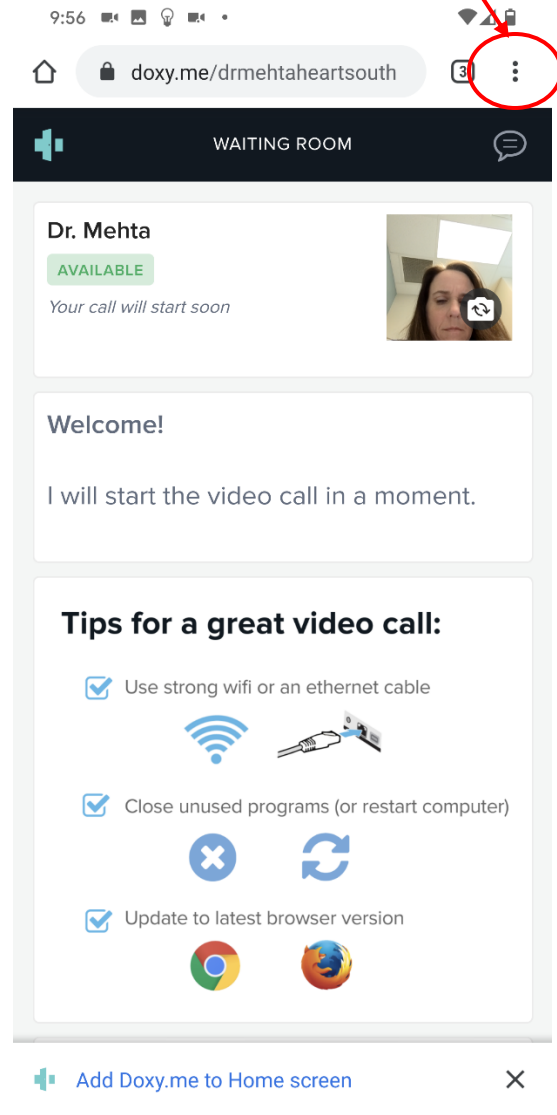

Step 4: Allow Doxy.me to access your camera and microphone by pressing “Allow”. You may have to do this twice.

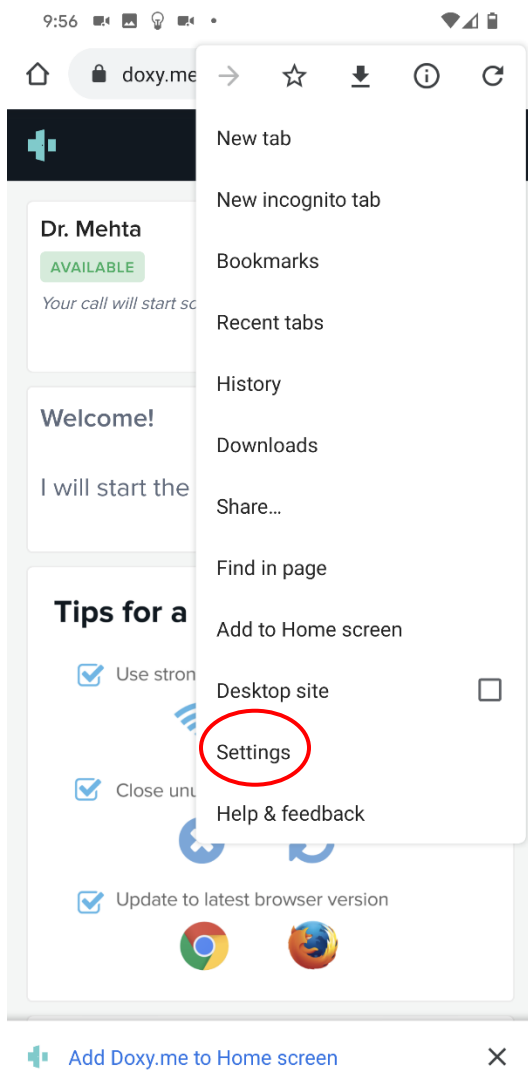

Step 5: If you reach this screen, you're all set! Your provider will be with you shortly. Please keep this screen open until he or she arrives. If you're not at this screen, please continue with the next steps.

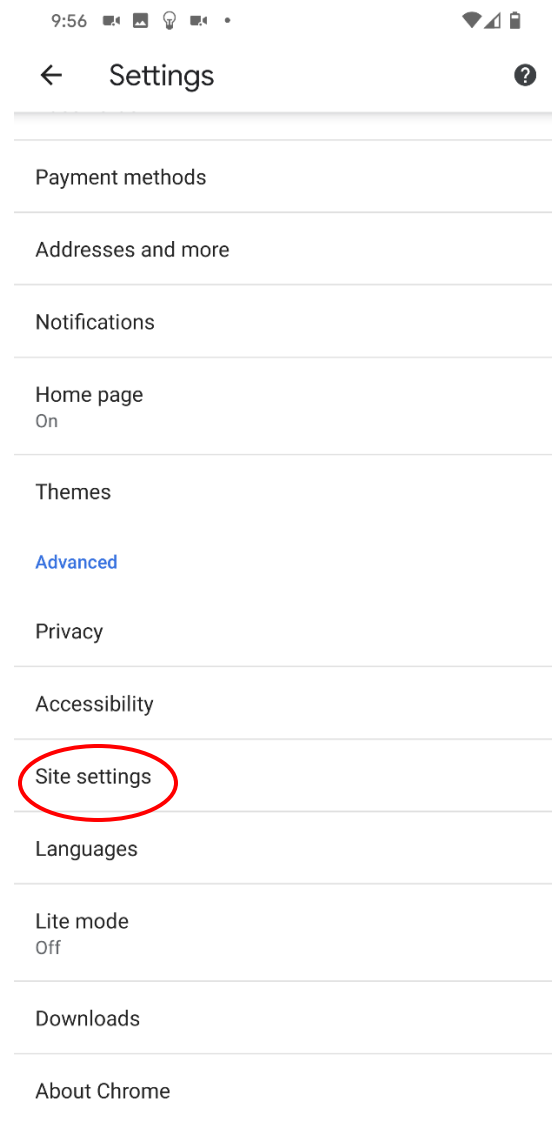

Step 6: If you're still having trouble, press the three dots at the top right-hand corner of the screen, or go your browser settings.

Step 7: Select "Settings"

Step 8: Choose "Site Settings"

Step 9: Select “Microphone” and choose “Allow”. Select “Camera” and choose “Allow”.

Step 10: Return to Step 1 and everything should work this time! Thank you for your patience!
